

## Awaken Book Club Guidelines

Thank you for joining the *Awaken Book Club*. Here are some points to make this a meaningful experience —

1. First, please get your copies of ***Awaken*** and ***The Greater Purpose*** books, as these books are key to everything moving forward. They are really all you need to begin shifting energy. You'll find them on Amazon in three forms. The print book is what you might start with initially.
2. Both books are necessary to enable the transformation we suggest.
3. Please plan to read one, the other, or both in tandem.
4. The audiobooks are great companions to your physical books.
5. This is not simply a book club but your opportunity to enact transformative, life-changing steps. Please consider sharing your results with this group and with your friends. You are encouraged to do and be rather than simply reading words on a page. Bring these words to life in the transformation they suggest.
6. Please keep understandings shared to those insights offered by the Elders. There are many great teachers, but some teachings have slight nuances that may have been altered over time or not all they could be. Sometimes, too, misinterpretations occur. We seek to sidestep those by offering this book club. Consider releasing existing beliefs so you might incorporate new understandings and their transformative new beginnings.
7. Please, no pontificating, grandstanding, or self-solicitation. Ha.
8. Ask questions. Ask multiple questions. No question is off-limit and there is no timeline in place. You are asked, however, not to jump to a later chapter but to move in the sequence suggested. Unlayer as you progress throughout this time.
9. If there is background noise wherever you Zoom from, please keep your microphone muted until you have a question or want to add to the discussion.
10. Should you want to simply listen in, that's fine too. The only prerequisite is for you to secure copies of the books so you can refer to them, grow, and expand from each discussion.

The Elders and I are so happy you're here!!
